

Teams will be judged based on these five criterias. Judges will weigh the criteria equally. During judging, participants should try to describe what they did for each criterion in their project.

1. Innovation and Creativity

- How creative and new is the idea?
- How did the Team Foster a Culture of Innovation within the Project?
- How is the project different from the current solutions available?

2. Alignment with the theme

- How Clearly Does the Project Demonstrate Alignment with the Theme?
- In what ways does the team Incorporate the Theme into the Core Elements of the Project?

3. Technical and Market Feasibility

- How technically impressive is the hack?
- Is the hack feasible in the market?
- Was the problem properly tackled by the proposed solution?

PS: UI/UX will also be considered within the technical aspect of the project

4. Impact and Potential

- Does the project hold potential to create and/or disrupt a market?

5. Presentation and Pitch

- How Clearly Did the Team Articulate the Project's Objectives and Significance in the Presentation?
- Did the Team Successfully Address Questions and Challenges During the Q&A or Discussion Portion?
